\* During the reviewing process, it is required to prepare specific documents including the agreements of confidentiality & transaction support commencement.

\* In addition to the submitted documents, you can request information about coins to be listed.

## Required Documents

### 1. Technical White Paper

2. **Business Summary** : The form must be completed in a free-form and include the following:

Items	General Guidelines
<b>Summary</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Based on the contents of the white paper and Github provided by the coin development team.</li> <li>Coin's Purpose: General purpose of the coin's service, purpose, features, and total issue amount.</li> <li>Main Specifications: Date of issuance, homepage, and market information.</li> </ul>
<b>Team Introduction</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Based on the contents of the white paper and Github provided by the coin development team.</li> <li>Written Contents: Educational background and careers of the development team members for the expression the trust of the development team.</li> </ul>
<b>Service Concept</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Based on the contents of the white paper provided by the coin development team.</li> <li>Written Contents: Qualities and contents of the service, focusing on the competitiveness of the project and the profit structure of stable business.</li> </ul>
<b>Technical Features</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Based on the contents of the white paper and Github provided by the coin development team.</li> <li>Written Contents: Qualities of technology implementation such as suitability, scalability, security, and completeness of algorithms and technologies.</li> </ul>
<b>Road Map</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Based on the contents of the white paper and Github provided by the coin development team.</li> <li>Written Contents: The "Technical Roadmap" for technology implementation.</li> </ul>
<b>Opinions &amp; Reviews</b>	<ul style="list-style-type: none"> <li>Written Guidelines: Future vision of the coin based on the above contents.</li> <li>Written Contents: Business continuity, technical base, and scalability.</li> </ul>

# Coin Listing Guide

## Coin Listing Expense

Coin Affiliation	Listing Examination Fee	Listing Fee	Monthly Maintenance Fee	Monthly Server Fee	Required Information For Listing
ERC-20 Tokens	\$20,000	\$30,000	\$1,500		Symbol, Abbreviation, Full Name, Contact Address, & Technical White Paper
EOS & EOS-Based	\$20,000	\$80,000	\$2,000	\$2,000	Symbol, Abbreviation, Full Name, & Technical White Paper
Major Blockchain-Based	\$20,000	\$80,000	\$2,000		Symbol, Abbreviation, Full Name, & Technical White Paper
Unique Algorithm Coins	\$20,000	\$80,000+@	\$2,000	Decision After Structural Analysis	Symbol, Abbreviation, Full Name, White Paper, API Development

1. Listing Examination Fee: Payment after submission of documents
2. Listing Fee : Payment upon application of technology after completion of examination
3. Monthly Maintenance Fee: Payment on the 20th of each month from the following month after listing
4. Monthly Server Fee : Payment on the 20th of each month from the following month after listing
5. Required Information For Listing : Submission when applying technology after completion of examination
6. In the case of monthly maintenance, fees may vary depending on the amount of monthly transactions or the frequency of technical errors.
7. Fees such as cash withdrawal fees, coin withdrawal fees, and transaction closing fees, will be announced separately.
8. Fees paid at the time of examination will not be refunded.

## Termination Of Transaction Support

1. The transaction volume of the coin is reviewed each month, and the transaction duration, intention, and termination are designated.
2. "Transaction Significance" is designated by holding a judging council through the monitoring results of the operation team, such as continually reduced transaction volume, exposed technology risks, policy violations, and difficulties in supporting developers.
3. In the case of "transaction significance", daily transaction volume is monitored and follow-up measures will be taken.
4. If the status of "transaction significance" persists for one month, "termination of transaction" will be processed.
5. In the following cases, "termination of transaction" will immediately be processed.
  - Violation of laws or regulations / policies of government agencies and major organizations
  - Average trading volume per day after 4 weeks of listing is less than 0.5 BTC for more than 7 days
  - The daily trading volume is 0 or frequently falls below the minimum trading volume
  - Serious vulnerabilities are found in the technology
  - Developer support has been stopped or no project participation has been confirmed
  - It is confirmed to be inconsistent with our policy

# Coin Listing Guide

## ☐ Listing Service #1 – Monetium Mainnet-Based Tokens (MNT-20)

- Issue and build a token based on the Monetium mainnet and list on the Monetium exchange at the same time.

1. Issue and build tokens based on the Monetium mainnet (MNT-20)
2. Issue and build and list on the Monetium exchange at the same time.
3. DApp (Decentralized Application) can be configured as a side chain of tokens
4. Personal Wallet – Web, Android, iOS
5. Provide management function of personal private keys on own server
6. Provide administrator tools – Member management, lock setting, mass airdrop delivery, swap function, etc.
7. Provide technical white paper
8. Expense

Mainnet-based coin development: \$50,000

Monthly maintenance fee / server fee: \$3,000 + @ (additional cost depending on the amount of transaction per month)

\* When using this service, there is no exchange listing fee or monthly maintenance fee.

## ☐ Listing Service #2 – Independent Mainnet-Based Coin

- Build and develop your own independent mainnet-based coin and list on the Monetium exchange at the same time.

1. Build and develop your own independent mainnet-based coin
2. Build and develop and list on the Monetium exchange at the same time.
3. DApp (Decentralized Application) can be configured as a side chain
4. Personal Wallet – Web, Android, iOS
5. Provide management function of personal private keys on own server
6. Provide administrator tools – Member management, lock setting, mass airdrop delivery, swap function, etc.
7. Provide technical white paper
8. Expense

Mainnet-based coin development: \$80,000

Monthly maintenance fee / server fee: \$4,000 + @ (additional cost depending on the amount of transaction per month)

\* When using this service, there is no exchange listing fee or monthly maintenance fee.
